

## A series of web conferences

**What is the role of local and regional authorities in the protection of public spaces and what tools can they use to better respond to terrorist threats?**

# PRoTECT Web Conferences

- ❓ **Session 1:** 17 February, **Vulnerability assessment of a potential target: How can local authorities make informed decisions on the necessary security provisions for public spaces?**
- ❓ **Session 2:** 17 March 2pm CET, **What considerations should cities take into account when considering the adoption of technologies to protect public spaces?**
- ❓ **Session 3: TODAY, How can technology protect public spaces and soft urban targets?**

# PRoTECT Project

## Goal:

To strengthen local authorities capabilities in **Public Protection** by putting in place an overarching concept where **tools, technology, training and field demonstrations** will lead to **situational awareness** and improve direct responses to secure public places pre, in, and after a **terrorist threat**.

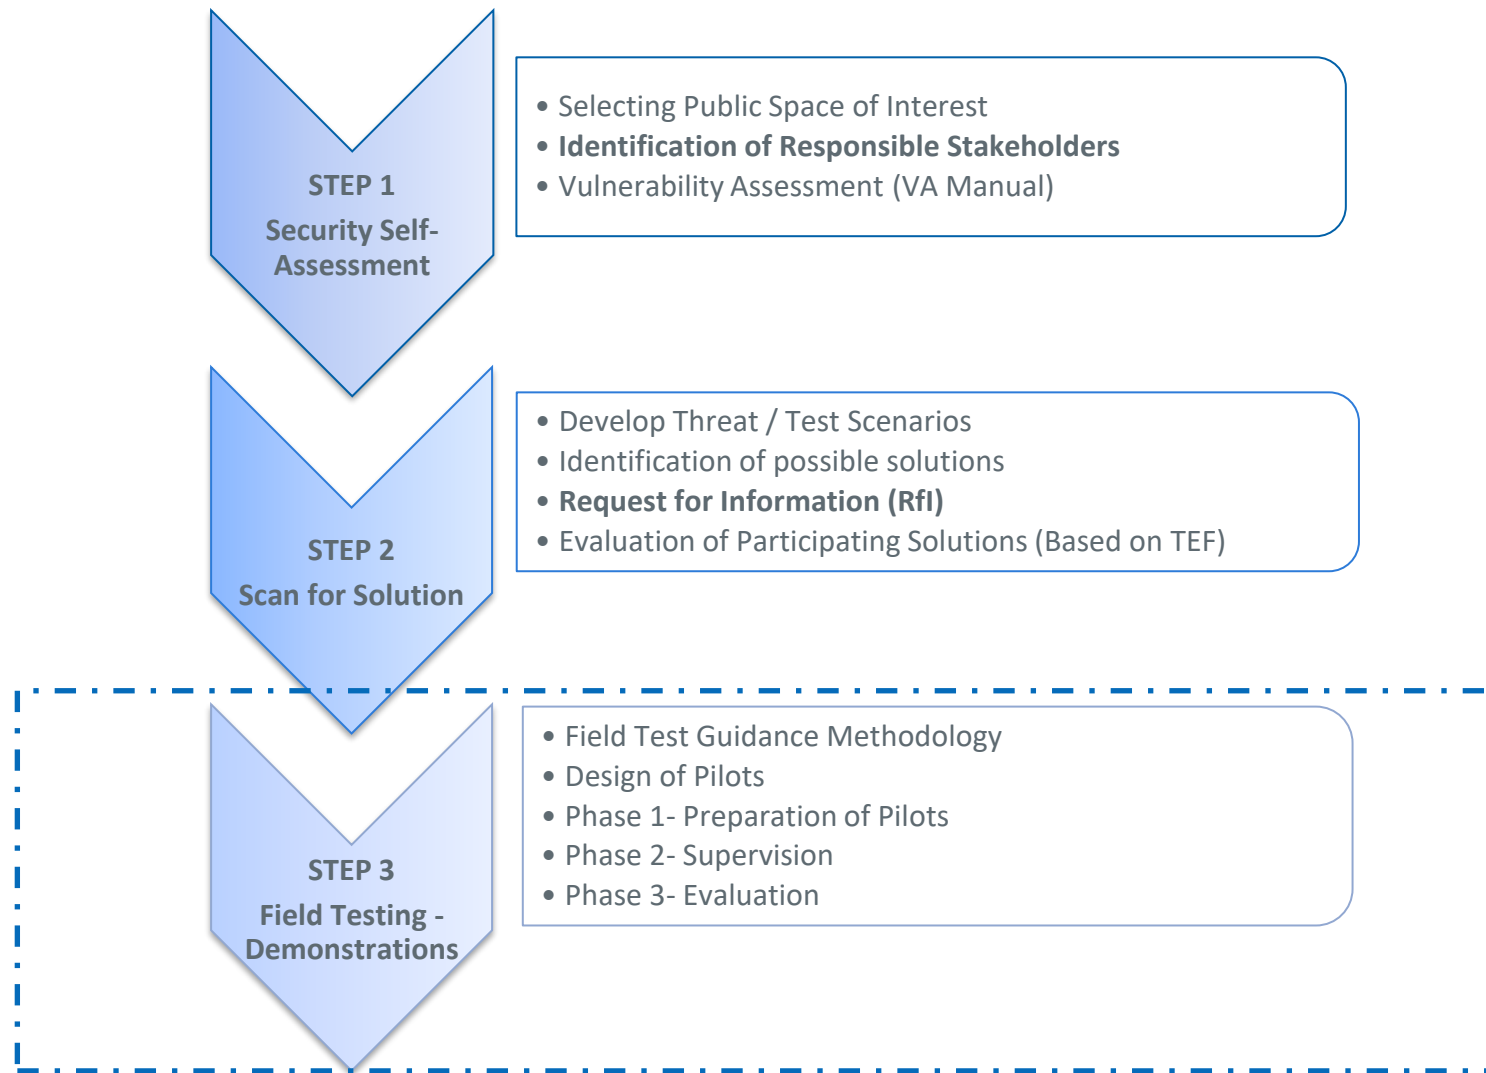

## Expected results:

Raising the awareness of municipal authorities on security concepts and adaptation of technology in the protection of public spaces.

Share best practices and lessons learned to efficiently apply technology concepts to protect public spaces.

Build a closer, permanent collaboration between municipal authorities and law enforcement via existing networks (ENLETS, Efus).
