EUROPEAN SYMPOSIUM / STRASBOURG APRIL 2019

**LOW RISK DRUG CONSUMPTION ROOMS IN EUROPE:
ASSESSMENT AND PROSPECTS**

The health and social damage associated with the consumption of licit and illicit psychotropic substances fully justifies the urgency of implementing a risk reduction policy throughout Europe.

The City of Strasbourg and the Ithaque Association, with the support of the Interministerial Mission for the Fight against Drugs and Addictive Behaviour (MILDECA), the Greater East Regional Health Agency (ARS Grand Est), the European Forum for Urban Security (Efus) and Strasbourg-Ortenau Eurodistrict are pleased to invite you to a symposium on low risk drug consumption rooms:

April 3rd 2019 at the European Parliament in Strasbourg

In connection with the study visit to Strasbourg in the framework of the Solidify project on low-risk drug consumption rooms in Europe supported by the European Commission, this event, supported by the regional and national health authorities in France, will enable exchange on the numerous European experiences, the different legal frameworks and their evolutions, as well as innovations and future perspectives.

Institutional actors and grassroots associations, practitioners and policy makers from local, national and European levels are invited to participate.

A detailed program will be provided.

Please register through the Ithaque Association:

By mail at ithaque@ithaque-asso.fr or via telephone on 00 33 3 88 52 04 04 (No registration fee)
